    <p>YouTube is a video sharing website. This website allows for users
to upload content, like videos, share videos, and view videos. Youtube
contains a variety of content, like movies, gaming, tutorials, and
music. Also, users are able to subscribe to channels, like or dislike
videos, and comment on them.</p>
```

```
<p>YouTube is used to view and share content. Youtube is a website
made for entertainment and also educational purposes. Youtube is used
for live streaming, sharing news, and shows anything a person searches
up. This website can also be used as a job when content is being
created and uploaded by a person.</p>
